17th November: 12:00 to 1:30pm - **Online**

20th November: 11:00 to 12:30pm - **Croydon**

NON- VIOLENT RESISTANCE WORKSHOP

WHAT IS NVR?

NVR is an approach that helps adults in caring roles to resist violence, aggression, coercion and control from within the family.

NVR is not a **PARENTING PROGRAMME** but a **BEHAVIOURAL CHANGE PROGRAMME**.

WORKSHOP AIMS

To understand NVR in a family setting. To explore and understand a parent's 'stuckness' and managing our own expectations as professionals. To explore how we can help support families who are undertaking the NVR journey. To understand the support available for parents and Croydon's plans to further develop the NVR model.

WHO RUNS THE WORKSHOP?

RISE Mutual CIC delivers a range of services for families, perpetrators and victims. We believe that problems within the family can be resolved through a whole family approach such as NVR. RISE provided the CPV Programme in Croydon for 2 years and is now providing therapeutic support for children affected by domestic abuse through the Bambu programme.

IN PARTNERSHIP WITH...

Partnership Projects provides a wide range of specialist services based on NVR, for child to parent violence and abuse, self-destructive behaviour, adult entrenched dependency, risk of criminal or sexual exploitation, child and parent trauma. Partnership Projects was formed by Dr Peter Jakob in 2006, who pioneered the introduction of NVR in the UK.
