

Early Positive Approaches to Support (E-PAtS) Research Study

If your child has **additional developmental needs** (diagnosis not necessary) and is **at least 18 months old but not yet 6**, you might like to take part in the E-PAtS Research Study.

What is E-PAtS?

E-PAtS is an 8-session group programme for families that is designed and run by families and professionals working together.

What is the E-PAtS Research Study?

We want to find out if E-PAtS helps parents and carers of children with additional developmental needs.

This is a randomised study, which means families will be selected by chance (like tossing a coin) to either attend an E-PAtS group now or in 12 months' time.

Parents can receive up to **£60 worth of vouchers** for completing questionnaires.

Croydon Mencap is taking part in the E-PAtS Study
